

SHERRY DENTAL PC

To Our Patients with Dental Insurance

We will do our best to provide accurate information regarding benefits/coverage of your dental insurance to help you make informed decisions about your care.

- Your dental insurance is an agreement between you and your insurance company.
- All patient copayments and/or patient portions are only an estimate/never a guarantee of payment.
- You are responsible for all out of pocket portions/copayments and deductibles, due at the time of service.
- The amount of coverage varies from one group to another.
- Rarely does any insurance company attempt to cover all dental costs, and rarely are all costs covered even if a patient has dual coverage.
- In the last 40 years, most dental insurance companies have not increased their annual maximum; contributing only \$1,000 per year.
- Payment plans are available through third party financing, Care Credit.

We will work with you to understand the benefits as we have your best interest in mind. Please don't hesitate to ask if you have any insurance questions prior to treatment.

I have read, understood, and agreed to the above policy.
